June 24, 2011

The Power IT Laboratory in the Min Kao Department of Electrical Engineering and Computer Science at the University of Tennessee is seeking outstanding candidates for a research faculty position in power system dynamics and control, and related areas. Rank and salary are commensurate with qualifications and experience.

Candidates must have a Ph.D. in electrical engineering in power systems or controls with outstanding credentials that demonstrate their ability to initiate research and project ideas, conduct independent, successful research, and advise both graduate and undergraduate students on research work. Candidates must have excellent writing and verbal communication skills in English with a commitment to interact with industry and government agencies, as well as to write successful proposals. Candidates with three or more years of power industry experience are preferable, although this is not required. Hands-on experience with PSS/E, EMTDC, MATLAB, and Visio is also preferred.

Applicants should submit a cover letter, complete resume, research statement, and a list of at least three references to fnetjobs@utk.edu. Review of applications will begin immediately and continue until the position is filled.

The University of Tennessee, Knoxville (UTK) is a public urban university located in Knoxville, Tennessee. UTK's alliance with nearby Oak Ridge National Laboratory allows us to extend unique opportunities to pursue research projects working with internationally-known professors and researchers.

The Power IT Lab and FNET web sites can be found at:
