

Chien-fei Chen, Ph.D.
508 Min H. Kao Building, 1520 Middle Dr. Knoxville, TN 37996
Tel: (865) 974-3787
E-mail: cchen26@utk.edu

Updated October, 2018

Current Position

Director of Education and Diversity Program & Research Associate Professor
National Science Foundation (NSF) and Department of Energy (DOE) Funded Engineering Research
Center, Center for Ultra-wide-area Resilient Electrical Energy Transmission Networks (CURENT)
University of Tennessee, Knoxville, UTK

Adjunct Research Faculty
Department of Sociology, UTK

Education

Ph.D. Sociology, Washington State University, 2009
M.A. Mass Communication, Washington State University, 1994
B.A. Foreign Language and Literature
(Major: English and American Literature; Minor in Japanese), 1992
National Cheng Kung University, Taiwan

Previous Academic Appointments

2011-June 2018 Research assistant professor at CURENT, UTK
2009-2010 Research Scientist, Dept. of Electrical Engineering & Computer Science,
Virginia Tech
2008-2009 Lecturer, Dept. of Communication Studies, UTK

Television and Public Relation Industry Appointments

1998 - 2001 Producer & Program Planner, Public Television Service (PTS), Taipei, Taiwan
1998 News Writer & Program Planner, SET Television Station, Taipei, Taiwan
1997-1998 Campaign Manager, Vision Communication Public Relation Company,
Taipei, Taiwan
1997 Producer and Program Planner, Chinese Television Station, Taipei, Taiwan
Production Assistant (internship), KCTS-Seattle Public Television, Seattle, WA
1996-1997 Producer & Director, Seattle Chinese Television Station, Seattle, WA

Research Focus

Environmental Sociology, Building and Human Interaction, Interdisciplinary Research of Social
Science, Engineering and Computing Research in Energy, Survey Design, Quantitative Research
Survey Methodology

Publications under Review or Revision

1. Mammoli, A., Robinson, M., Ayon, V., Martínez-Ramón, M., **Chen, C.F.**, & Abreu, J. (under review). A simulation framework to for real-time control and load-shedding tools for aggregated residential energy resources with behavioral models. *Energy and Buildings*.

2. Xu, X., & **Chen, C.F.** (under revision). Energy Efficiency and Energy Justice for US Low-Income Households: An Analysis of Multi-Facet Challenges and Potential. *Energy Policy*.
3. Li, Da., Xu, X., **Chen, C.F.**, & Menassa, C. (under revision). Exploring the drivers of energy saving behaviors in office buildings using an integrated and improved motivation-opportunity-ability framework. *Energy Research and Social Science*.
4. Yamaguchi, Y., **Chen, C. F.**, Yagita, Y., Iwafune, Y., Shimoda, Y., Ishii, H. & Hayashi, Y. (under review). An interdisciplinary approach estimating demand response flexibility based on household heterogeneity and activities in Japan. *Applied Energy*.

Book Chapters

1. **Chen, C.-F.**, Schweiker, M. & Day, J. K. (2018). Ethics and privacy. In Andreas Wagner, William O'Brien and Bing Dong (eds.) Exploring occupant behavior in building: Methods and challenge (pp. 287-306). New York, NY: Springer Nature.
2. Christine Horne, **C.-F. Chen**, Justin Berg, & Katie Evermann-Druffel. (2009). Metanorm expectations: Determining what to sanction. In Shane R. Thye, Edward J. Lawler (eds.) *Altruism and prosocial behavior in groups (Advances in group processes, Volume 26)* (pp.199 – 223). Wales, UK: Emerald Group Publishing Limited.

Journal Publications

1. Arpan, L., Xu, X., Raney, A.A., **Chen, C.-F.**, & Wang, Z. (2018). Politics, values, and morals: Assessing consumer responses to the framing of residential renewable energy in the United States. *Energy Research and Social Science*, 46, 321-331.
2. Shuai, J., **Chen, C.F.**, Cheng, J., Leng, Z., & Wang, Z. (2018). Are China's solar PV products competitive in the context of the Belt and Road Initiative? *Energy Policy*, 120, 559-568.
3. Xu, X., **Chen, C.F.**, Zhu, X., & Hu, Q. (2018). Promoting acceptance of direct load control programs in the United States: Financial incentive versus control option. *Energy*, 147, 1278-1287.
4. Asadinejad, A., Rahimpour, A., Tomsovic, K., Qi, H., & **Chen, C.- F.** (2018). Evaluation of residential customer elasticity for incentive based demand response programs. *Electric Power Systems Research*, 158, 26-36.
5. Talele, S., Traylor, C., Arpan, L., Curley, C., **Chen, C.-F.**, Day, J., Feiock, R., Hadzikadic, M., Ingman, S., Karaguzel, O.T., Lam, K.P., Menassa, C., Pevnitskaya, S., Spiegelhalter, T., Tolone, W.J., Yan, W., Yeatts, D., Zhu, Y., & Tao, Y. (2018). Energy modeling and data structure framework for sustainable human-building ecosystems (SHBE): A review. *Frontiers in Energy*, 1-19. <https://doi.org/10.1007/s11708-017-0530>.
6. **Chen, C.-F.**, Xu, X., & Arpan, L. (2017). Between the technology acceptance model and sustainable energy technology acceptance model: Investigating smart meter acceptance in the United States. *Energy Research and Social Science*, 25, 93-104. <http://dx.doi.org/10.1016/j.erss.2016.12.011>
7. **Chen, C.-F.**, Xu, X., & Day, J. (2017). Thermal comfort or money saving? Exploring intentions to conserve energy among low-income households in the United States. *Energy Research and Social Science*, 26, 61-71. <http://dx.doi.org/10.1016/j.erss.2017.01.009>

Conference Presentation and Publication

1. Washizu, A., Nakano, S., Chen, C.F., Ishii, H., & Hayashi, Y. (October, 2018). Measurement of demand function for HEMS: comparison between Japan and the United States. *EcoBalance 2018*, Ryogoku, Japan.
2. Chen, C. F., Benjamin Sovacool, Andrew, Jorgenson, Christine Horne and Emily Kennedy. (August, 2018). Special Panel for Conceptual Frameworks and New Frontiers in Energy Justice: From Macro to Micro Levels. *Annual Meeting of American Sociological Association (ASA)*, Pennsylvania.
3. Chen, C.F., Xu, X., Duncan, T., Islam, F., Adams, J., & Gilooly, V. (August, 2018). Social order, environmental impacts, and crisis communication: Mining tweets for analysis of hurricane disaster response. Paper presented at the *Annual Meeting of American Sociological Association*, Pennsylvania.
4. Xu, X., Chen, C.F., Washizu, A., Ishii, H., & Yashiro, H. (August, 2018). Willingness to pay for home energy management system: A cross-country comparison. Paper presented at the *IEEE Power and Energy Society (PES) General Meeting, Portland, OR*.
5. Washizu, A., Nakano, S., Chen, C.F., Ishii, H., & Hayashi, Y. (March, 2018). Comparison of Consumer Acceptance to HEMS in the US and Japan: Based on Contingent Valuation Method. *The 13th Meeting of the Institute of Life Cycle Assessment*, Tokyo, Japan.
6. Washizu, A., Nakano, S., Chen, C.F., Ishii, H., & Hayashi, Y. (January, 2018). Comparison between willingness to pay for HEMS in Japan and the United States: Based on the results of a large-scale Japan-US common questionnaire survey. *The 34th Energy System, Economic and Environmental Conference*, Tokyo, Japan.
7. Chen, C. F. (2017, December). The social-psychological factors affecting willingness to adopt smart meters and smart home energy management system in the United States. Presentation to the *World Congress on Sustainable Technologies (WCST)*, University of Cambridge, UK.
8. Chen, C. F. (2017, December). Promoting voluntary peak demand response behaviors in the United States: A special examination across income groups,” Presentation to the *World Congress on Sustainable Technologies (WCST)*, University of Cambridge, UK.
9. Chen, C. F. & Xu, X. (2017, July). Do poor people think differently from rich people? Investigating public acceptance of electricity demand response behaviors across income levels in the United States.

Poster presented at the *NSF RCN: Energy Impacts Symposium for Fostering Cross Disciplinary Research on Energy Development*, Columbus, Ohio.

10. Chen, C.-F. (2017, June). An interdisciplinary framework and survey for investigating cross-country occupant behavior in buildings: Social-psychological analysis of demand response and smart home management system. Presentation at the *Annual American Society of Heating and Air-Conditioning Engineers (ASHRAE) Summer Conference*, Long Beach, CA.
11. Chen, C.-F., Xu, X., Arpan, L., & Loveday, A. (2017, August). Fuel poverty: The role of social-psychological factors affecting low-income households' acceptance to demand response. Paper presented at the *Annual Meeting of American Sociological Association (ASA)*, Montreal, Canada.
12. Chen, C.-F., Arpan L., & Xu, X. (2017, April). Predicting consumer interest in electricity demand response programs in the United States: A social-psychological approach. Poster presented at *The First International Conference on Energy Research & Social Science*, Melia Sitges, Spain.
13. Asadinejad, A., Tomsovic, K., Chen, C. F (2017, September). Sensitivity of incentive based demand response program to residential customer elasticity. Paper presented at the *IEEE North American Power Symposium (NAPS)*, Denver, Co.
14. Roetzel, A. & Chen, C.-F. (2016, December). Understanding qualitative and quantitative influences on occupant behavior in offices. Paper presented at the *International Conference of the Architectural Science Association*, Adelaide. Australia.
15. Asadinejad, A., Varzaneh, M. G., Tomsovic, K., Chen, C. F., & Sawhney, R. (2016, July). Residential customers' elasticity estimation and clustering based on their contribution at incentive-based demand response. Paper presented at the *IEEE Power and Energy Society (PES) General Meeting*, Boston, MA.
16. Chen, C.-F. (2016, January). Beyond technology: Improving occupants' energy efficiency behaviors through social-psychological analysis. Presentation at the *Annual American Society of Heating and Air-Conditioning Engineers (ASHRAE)*, Winter Conference, Orlando, FL.
17. Chen, C.-F. & Xu, X. (2015, August). Exploring social psychological factors and barriers affecting low-income residents' intentions to reduce energy use. Paper presented at the *Annual Meeting of American Sociological Association (ASA)*, Chicago, IL.
18. Hu, Q., Fang, X., Li, F., Xu, X., Chen, C. F., & Hu, H. (2015, July). An approach to assess the responsive residential demand to financial incentives (pp. 1-5). Paper presented at the *2015 IEEE Power & Energy Society General Meeting*, Denver, CO.
19. Xu, X. & Chen, C.-F. (2014, December). Investigating residents' responses to financial incentives and related customer segmentation for promoting demand responses. Poster at the *Annual Meeting of Behavior, Energy and Climate Change (BECC)*, Washington, D.C.
20. Chen, C.-F., Xu, X., Zhao, W., & Sun, J. (2014, August). Privacy concern, energy concern, or money consciousness? Examination of factors influencing residents' smart meter acceptance. Paper presented at the *Annual Meeting of American Sociological Association (ASA)*, San Francisco, CA.
21. Foy, J., Chen, C.-F. & Wills, E. (2014, June). Integrating assembly language programming into high school STEM education. *The 121st American Society of Engineering Education*

Annual Meeting (ASEE), Indianapolis, IN.

22. Chen, C.-F. & Xu, X. (2013, November). Do the right thing or stay comfortable? Exploring social-psychological factors affecting electricity saving among employees in Chinese electric power companies. *The Annual Meeting of BECC*, Sacramento, CA.
23. Xu, X., & Chen, C.-F. (2013, November). Saving energy for different reasons: Exploring the social-psychological drivers for electricity curtailment and recycling behaviors. Poster at the *Annual Meeting of BECC*, Sacramento, CA.
24. Xu, X., Chen, C. F., Gao, W., & Li, H. (2013, August). Beyond classical economics: Exploring the impact of social-psychological factors on preference for speed over price and willingness to pay for a faster wireless service plan (pp. 55-60). Paper presented at the *2013 IEEE/CIC International Conference on Communications in China (ICCC)*, Xi'an, China.
25. Chen, C.-F. & Shelton, J. (2013, August). Exploring social-psychological factors of affecting electricity use and support of renewable energy policy. Paper presented at the *Annual Meeting of American Sociological Association (ASA)*, New York, NY.
26. Chen, C.-F., Li, Y., & Banerjee, D. (2012, August). Exploring social-psychological factors related to energy conservation behavior among Chinese employees. Paper presented at the *Annual Meeting of American Sociological Association (ASA)*, Denver, CO.
27. Mar, H., Chen, C.-F., & Li, H. (2012, July). Bayesian network structure learning for analyzing the impact of social networks on adolescent heavy drinking. *The Add Health Users Conference*, NIH Campus, Bethesda, MD.
28. Chen, C.-F. & Shen, X. (2012, May). Do fear-appeal media messages work in China? Effects of law enforcement, perceived consequences, and injunctive norms on drinking- and driving behavior among Chinese students. Paper presented at the *Annual Meeting of International Communication Association (ICA)*, Denver, CO.
29. Chen, C.-F. & Shen, X. (2011, October). Social and psychological factors of drinking and driving among Chinese college students. Paper presented at the *Proceedings of International Conference on Public Administration*, Dongsan City, China.
30. Chen, C.-F., Li, H., & Mar, H. (2011, August). Explaining mechanisms of norms and networks on heavy drinking and alcohol consequences among youth. Paper presented at the *Annual Meeting of American Sociological Association (ASA)*, Las Vegas, NV.
31. Chen, L., Markham, P., Chen, C. F., & Liu, Y. (2011, July). Analysis of societal event impacts on the power system frequency using FNET measurements (pp. 1-8). Paper presented at *2011 IEEE Power and Energy Society General Meeting*, Detroit, MI.
32. Li, H., Chen, C. F., & Lai, L. (2011, June). Propagation of spectrum preference in cognitive radio networks: A social network approach (pp. 1-5). Paper presented at the *2011 IEEE International Conference on Communications (ICC)*, Kyoto, Japan.
33. Chen, C.-F. (2010, August). Norm transmission, interpersonal communication and drinking decision. Paper presented at *The Annual Meeting of American Sociological Association (ASA)*, Chicago, IL.

34. Tang, L. & Chen, C.-F. (2010, June). Connecting social norms and social networks: A study of unhealthy weight control intentions and internalization of thin ideal in China. Paper presented at the *Annual Meeting of International Communication Association (ICA)*, Singapore.
35. Chen, C.-F. & Tang, L. (2009, May). Social norms and sanctioning through social networks: A theoretical study of body image. Paper presented at the *Annual Meeting of International Communication Association (ICA)*, Chicago, IL.
36. Chen, C.-F., Bolls, P., Bemker, V., Schmidt, N., and Harbor, A. (2004, May). The effects of audio-video redundancy and emotional valence on the allocation of attention to audio and visual processing. Paper presented at the *Annual Meeting of International Communication Association (ICA)*, New Orleans, LA.

Funding

1. Co-PI, "Collaborative Research: CRISP Type 2: Revolution through Evolution: A Controls Approach to Improve How Society Interacts with Electricity," National Science Foundation (NSF), CNS 1541117 9/15/15-9/14/18 (\$2,499,801).
2. PI, Research Experience for Veterans Supplement Grant, NSF 08/1/2015-7/31/2018 (\$40,000).
3. Co-PI, "Collaborative Research: Design, Analysis and Implementation of Social Interactions in Cognitive Radio Networks," NSF CNS1247834, 10/01/2012-9/30/2015 (\$140,000).
4. PI for the Research Task of "Social-psychological Factors of Energy Saving, Public Acceptance of Smart Meter, Demand Response Programs and Renewable Energy Technology," NSF EEC-1041877: "Center for Ultra-Wide-Area Resilient Electric Energy Transmission Networks (CURENT)," 08/15/2011-08/15/2018 (\$360,000).
5. Director of pre-college, university and REU programs, NSF EEC-1041877: "Center for Ultra-Wide-Area Resilient Electric Energy Transmission Networks (CURENT)," 08/15/2011 08/15/2018 (internal support from CURENT, \$1,897,390.8).
6. PI, "Persuasive Power in Norms: Under What Conditions Will Norms Work" Alcohol and Drug Abuse Research Program Pilot Grant (\$10,895), 2008-2009, WSU.
7. Gordon D. & Izola P. Morgan Graduate Fellowship, Sociology, WSU.

Teaching Experience

2011-2018	Co-instructor of Graduate Advance Research Seminar: Ultra-Wide-Area Resilient Electric Energy Transmission Networks, Department of Electrical Engineering and Computer Science, UTK (team taught across multi-disciplines among four campuses including Tuskegee, Northeastern University, Rensselaer Polytechnic Institute and UTK).
2011-2018	Co-instructor of Power and Energy System Seminar EE691/EE496 (focusing on research, professional development and entrepreneur).
2008	Lecturer, Department of Communication Studies, UTK
2007	Teaching Assistant, Department of Sociology, WSU Course: Introduction to Sociology
2003-2005	Teaching Assistant, Department of Sociology, WSU Course: Introduction to Statistical Analysis

Invited Presentations

- Understanding Residential and Commercial Customers: Social-psychological and Contextual Factors Affecting Low-income Households' Energy Practices- An Interdisciplinary Approach of Examining Energy Justice. *Electrification* 2018, International Conference and Exposition in Long Beach, California.
- Will People Cooperate? Exploring Social Dilemma Issue and Cooperative Energy Behaviors During Extreme Events. Presented for NSF RCN-SHBE Workshop: Integration of the Human Dimension in Product and Process Modeling in the Creation of Resilient and Sustainable Human-Building Ecosystem, Carnegie Mellon University, May 17th-18, 2018
- Is Technology Enough: Social-psychological Analysis of Demand Response Behaviors and Home Management System. Lawrence Berkeley National Lab, January 5th, 2018.
- Social-psychological Analysis of Demand Response, Energy Behaviors and Smart Home Management System. Presented for NSF-National Natural Science Foundation of China's International Workshop on Smart Cities, Human Behavior and Sustainable Development: Opportunities and Challenges for Infrastructure Development, Beijing, September 27-30th, 2017.
- Interdisciplinary Approach to Investigate Demand Response and Energy Behaviors: Integration of Social-psychology and Power Systems. Presented for Department of Electrical Engineering, Tsinghua University, China, June 5th, 2017;
- Integration of Social-psychology and Power Systems. Presented for Department of Electrical Engineering, Tsinghua University, China, June 5th, 2017; & School of Economics and Management, North China Electric Power University, June 2nd, 2017.
- Social-Psychological Analysis of Demand Response and Energy Behaviors and Smart Home Management Systems in the U.S., Presented for Department of Civil Engineering, National Taiwan University, May 8th, 2017 and Department of Electrical Engineering, Sun Yat-Sen University, Taiwan, May 11th, 2017.
- Keynote: Technology is not Enough: Social-Psychological Analysis of Demand Response and Energy Behaviors. Presented for School of Mechanical Engineering, Tongji University, China, May 17th, 2017'
- Social-psychological Modeling and Analysis for Residential Energy Behaviors. Presented for NARI School of Electrical and Automation Engineering, Nanjing Normal University, China, May 22nd, 2017; Department of Electrical Engineering, Zhejiang University, China, May 26th, 2017; and Department of Electrical Engineering at Xi'an Jiaotong University, China and Xi'an University of Technology, May 31st, 2017.
- The Value of Social Psychology for Improving Building Modeling. Presented for NSF RCN-SEES: Predictive Modeling Network for Sustainable Human-Building Ecosystems (SHBE). Workshop Theme IV: Enhancing Interdisciplinary Education and Diversity in Education, Knoxville, TN, September 20th-October 1st, 2016.
- An International Occupant Behavior Survey Effort. Presented for the 4th Experts' Meeting in Working Phase of IEA EBC Annex 66 Meeting, Ottawa, Canada, August 3-5th, 2016.
- Social-Psychological Factors in the Interdisciplinary Research of Demand Response and Renewable Energy Technology. Presented for GEIRI North America (part of State Grid, China), July 28th, 2016.
- Beyond Technology: Why Social-Psychological Factors are Important in the Interdisciplinary Research of Energy and Technology. Presented for ACROSS Research Center, Waseda University, Japan, April 25th, 2016,
- Considering Social-psychology in the Interdisciplinary Research and Energy Use and Technology Acceptance. Presented for the Department of Electrical Engineering at National Sun Yet Sen University, May 3rd, 2016, Taiwan, Department of Electrical Engineering at Southeast University, China, May 13th, 2016 and NARI, Nanjing, China, May 16th, 2016.

- The Importance of Environmental Sociology and Survey Methodology to Occupant Behavior Research. Department of Building Science, Tsinghua University, China, May 18th, 2016.
- Exploring the Relationship between Social-psychological Factors and Residential Demand Response Programs. Presented for the Center of iNnovation and Synergy for Intelligent Home and living Technology (INSIGHT), Taiwan University, May 5th, 2016.
- Integration of Social Psychological Factors and Group Dynamic Analysis of Occupant Behavior in Buildings. Presented for the 3rd Expert Meeting in Working Phase of EBC Annex 66 Meeting, Vienna, Austria, March 31st, 2016.
- Social Psychological Approaches to Analyze Demand Response and Promote Energy Efficiency. Keynote speaker for the joint workshop of US NSF CURENT and Japan ACROSS on Distributed Energy Management System, Waseda University, Japan, December 10th, 2015.
- Social-psychological Analysis of Residential Energy Behaviors and Customer Segmentation. Presented to the Center of iNnovation and Synergy for Intelligent Home and living Technology (INSIGHT), Taiwan University, July 21st, 2015.
- Environmental Psychology and Improving Energy Efficiency through Social-Psychological Approaches. Presented to Department of Electrical Engineering and Computer Science and School of Architecture, Tsinghua University, Beijing, July 6th, 2015; and the Department of Mechanical Engineering and Environmental Science, Nanjing Normal University July 7th, 2015 and the Department of Electrical Engineering, Southeast University, Nanjing, China, July 8th, 2015.
- Beyond Technology: Enhancing Energy Efficiency through Social Psychological Approaches in Public Domain. Presented to the International Energy Agency (IEA), Energy in Buildings and Communities (EBC) Annex 66, Lawrence Berkeley National Laboratory, March 30th, 2015.
- Social-psychological Approaches to Energy Saving. Presented to the NSF RCN-SEES: Predictive Modeling Network for Sustainable Human-Building Ecosystems, May 26th, 2014.
- NSF Engineering Research Center (ERC) University Education Programs. Panelist at the NSF Division of Engineering Education and Centers, Engineering Directorate, Engineering Education PI Awardees' Meeting, September 29-30th, 2014.
- Social-psychological Factors Relating to the Acceptance of Smart Meters. Presented to Vanderbilt Institute for Energy & Environment, Vanderbilt University, October 30th, 2013
- Collaborative Research: Design, Analysis and Implementation of Social Interactions in Cognitive Radio Networks. Presented to the NSF Enhancing Access to the Radio Spectrum (ERAS) Program Workshop, October 6th, 2013.
- Promoting Engineering Education to Women. Presented to Federal Bureau of Investigation (FBI), Knoxville, April 3rd, 2013.
- Approaches to University Education Diversity Programs. Presented to the NSF Engineering Research Center Annual Meeting, October 20th, 2013.
- Social-psychological Factors and Energy Issues. Presented to the Department of Electrical Engineering, Southeast University, Nanjing, China, May 20th, 2013.

Professional Service

- Chair for NSF RCN (Research Coordination Network) SEES (Science, Engineering and Education for Sustainability) SHBE (Predictive Modeling Network for Sustainable Human-building Ecosystems) Program Workshop: *Putting Sustainability into Convergence: Connecting Data, People, and Systems*, 1/28-29, 2019, National University of Singapore.
- Workshop Committee for the NSF RCN-SEES-SHBE Program Workshop: Integration of the Human Dimension in Product and Process Modeling in the Creation of Resilient and Sustainable Human-Building Ecosystem, Carnegie Mellon University, May 17th-18, 2018
- Workshop Chair for the NSF-SEES-SHBE program “Enhancing Interdisciplinary Education and Diversity, University of Tennessee, September 30th-October 1st, 2016

- Department Reviewer for the Institutional Review Board (IRB) since 2015
- Organizer of the summer REU STEM Symposium at UTK in 2015 and 2016
- Reviewer for NSF Science Technology Center Proposal Red Team at UTK in 2015
- Steering committee and lead for sustainability education program for NSF RCN-SEES: Predictive Modeling Network for Sustainable Human-Building Ecosystems (SHBE) since 2014
- Co-lead on social-psychological modeling task and international occupant behavior survey for the International Energy Agency (IEA), Energy in Buildings and Communities (EBC) Annex 66: Definition and Simulation of Occupant Behavior in Buildings from 2014-2017.
- Committee of the interdisciplinary research task of occupant behavior model for the American Society of Heating and Air-Conditioning Engineers (ASHRAE) since 2016
- NSF reverse site visit reviewer for the Partnership International Research and Education (PIRE) Program, 2014
- Invited panelist for NSF Panel of the Engineering Education Awardee's Meeting: Testing Regimes and Engineering Formation in K-12 setting in 2014
- Co-moderator for the Education and Diversity Program Orientation, NSF Engineering Research Center Annual Meeting, November 14-16th, 2012
- Search committee for assistant professors from the Department of Teaching and Learning, UTK, 2012
- Led a group of undergraduate and graduate students from the department of EECS, UTK on research and academic exchange visit to Tsinghua, Southeast, and North Electric Power Universities and several utility companies in China in 2103 and 2017.
- Supervisor of CURENT student leadership council since 2011
- Responsible for various university and K-12 engineering education and diversity outreach, curriculum design, and proposal writing: including supervising research experience for undergraduate program (REU), designing engineering education assessment strategies, and professional trainings for graduate and undergraduate students; design and supervise middle school engineering programs, girl-only summer STEM program (*Adventure in STEM*), young scholar program (for high school students), research experiences for teachers (RET), K-8 Family Engineering Night, and STEM education curriculum development at local k-12 schools to encourage community's broader involvement in STEM education, particularly in the areas schools with economic disadvantages. Total outreach participants were over 30,000 since 2011
- Promote diversity in engineering fields for both universities and K-12 students, including encouraging women, minority, veterans, people with disabilities and lower-social economic background and so on since 2011

Advising Experience

- Post-doctoral researcher, serving as a major adviser
Dr. Xiaojing Xu, research projects relating to demand response, energy behaviors, and public acceptance of renewable technology, "Social Impact of Power Grid Technology and Energy Conservation Behaviors" (2012-present).
- M.S. and Ph.D. students serving as adviser for NSF-funded research projects for the departments of sociology and psychology, UTK
 1. Wenna Zhao. Energy saving behaviors and environmental impact (2012-2014)
 2. Summer Liu. Assessment for engineering education (2012-2014)
 3. Julie Shelton. Energy conservation behaviors, climate change and public acceptance of renewable energy technology (2013)
 4. Yifan Jiang. Public acceptance of communication and grid technology (2013)
- M.S. and Ph.D. students serving as committee member for the department of EECS and computer science, UTK

1. Kirsten Drew (Summer 2018). Spatial temporal data in real world. (Chair: Jian Huang)
 2. Drew Maters (Spring 2017). Demand response, smart meter and energy behavioral analysis (Chair: Audris Mockus)
 3. Jiahui Guo. (July 2016). Data analytics and application developments based on synchrophasor, measurements (Chair: Yilu Liu)
 4. Jidong Chai. (June 2016). Wide-area measurement-based applications for power system monitoring and dynamic modeling (Chair: Yilu Liu)
 5. Yin Lei. (August 2015). Wide-Area synchrophasor measurement applications and power system dynamic modeling (Chair: Yilu Liu)
 6. Qinran Hu. (July 2015). Incentive based residential load aggression (Chair: Fran Li).
 7. Lingwei Zhan. (June 2014). Accuracy and stability improvement of synchrophasor measurements (Chair: Yilu Liu)
- Undergraduate students in social science fields, serving as adviser:
 1. Bailey Edwards (Neuroscience, communication and psychology): Renewable energy adoption and social psychological factors (May 2018- present)
 2. Nesto Rivas (Psychology): Reducing poverty using solar panel in rural areas of China (Jan. 2018-May 2018)
 3. Victoria Gilooly (Psychology): Social-psychological analysis of disasters, power grid infrastructure and social inequality issues (November 2017- May 2018)
 4. Taylor Duncan (Psychology): Social-psychological factors affecting demand response and energy behavior among underserve communities (August 2017-present)
 5. James Brannon (Statistics): Public acceptance of smart home management system (May 2016-present)
 6. Jacqueline Adams (Psychology): Occupant behavior and energy saving in commercial building in multi-country context (August 2015- August 2018)
 7. Alyssa Loveday (Psychology): Social-psychological factors affecting smart home management system and demand response, a cross-country comparison (August 2016-September 2017)
 8. Jackson Lanier (Sociology): Energy behaviors, public good and occupant behaviors in commercial buildings (August 2015-August 2016)
 9. Erica Davis (Sociology): Energy demand response and social psychological factors (August 2015-August 2016)
 10. Luke Waring (Sociology): Power transmission infrastructure and environmental impact at the community level (2013)
 11. Kayla Stover (Sociology): Survey methodology and energy saving behaviors (2012)
 - Undergraduate students in engineering and computer science fields serving as research adviser:
 1. Jonathan Shields (Electrical Engineering): Acceptance of EV, social behaviors and infrastructure design. (October 2018-present)
 2. Christine Garcia (Electrical Engineering): Residential energy consumption behaviors (July 2018-present)
 3. Manny Bhidya, Nicholas West and Sydney Shelby (Computer Science): Data mining Tweets and machine learning to analyze human responses to infrastructure, social and disaster issue (September 2018-present)
 4. Julian Ball (Computer Science): (June 1st 2018-present): Data mining Tweets and machine learning to analyze human responses to infrastructure, social and disaster issue (June 1st 2018 to present)
 5. Jeffery Dong (Computer Science): Integrating statistical modeling with simulation to investigate social psychological analysis of demand response behaviors (August 2017- May 2018)
 6. Roy Tan, Brian Lundell, & Natalie Bogda: Data mining Tweets to analyze human responses to infrastructure, social and disaster issues (January 2017-July 2018)

7. Faiza Islam (Industrial Engineering): Social-psychological factors and residential demand response programs (September 2016-present)
8. James Bates (Electrical Engineering): Analysis of behavioral patterns using Residential Household Energy Consumption Data and American Time Use Survey (August 2016- May 2018)
9. Sean Indelicato (Electrical Engineering): Incentive based demand response (January – December 2017)
10. Taylor Woodward (Industrial Engineering) and Diane Garcia (Electrical Engineering): Public acceptance of smart home management system (Spring 2016-May 2017)
11. Adam Foshie (Electrical Engineering): Data acquisition and analysis for residential probabilistic demand response modeling (May-August 2016)
12. Candice Patton (Electrical Engineering): incentives and demand response programs (Fall 2013-Summer 2014)

Media Interview

- Interviewed by Knoxville News-Sentinel regarding social-psychological factors and smart meter project in July, 2016.
- Who Is More Likely to Conserve Energy? Social Psychology Could Lead to Increased Energy Efficiency. Interviewed and research featured by American Society of Heating, Refrigerating and Air-Conditioning Engineers (ASHRAE) Journal newsletter published on September, 16, 2017. https://contentsharing.net/actions/email_web_version.cfm?recipient_id=3218364118&message_id=14689399&user_id=ASHRAE&group_id=3963397&jobid=38608859.
